InLoox PM – Project Management in Your Network

Use the Power of the Market Leader*

Your workdays are full of challenges: juggling tasks, projects, team coordination and much more. InLoox PM combines project work and everyday operations in one single platform offering numerous advantages:

Project management in Microsoft Outlook & on the Web

Manage your projects directly in Microsoft Outlook and in your web browser. The shared database synchronizes across all devices.

Complete data security

InLoox PM is the ideal solution if you want to install software on your own hardware and manage your own data and IT infrastructure.

License model with one-off fee

With InLoox PM, you stay on top of your licensing costs. Either you license the software for a one-off fee per user or you opt for a lump-sum price for your whole company.

Agile and classical project management

Different teams in your company work with different project management methods? No problem – InLoox PM combines agile with classical, Gantt Chart-based project management in one single platform.

InLoox PM is there where you need it:

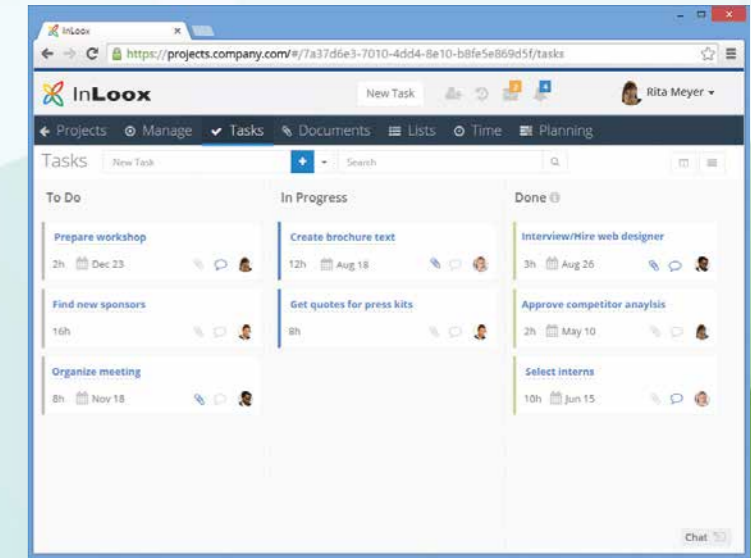

- Desktop-PC
- Apple Macs
- Tablets and iPads
- Smartphones
- Notebooks
- Phablets

* regarding functionality of fully Outlook-integrated solutions.

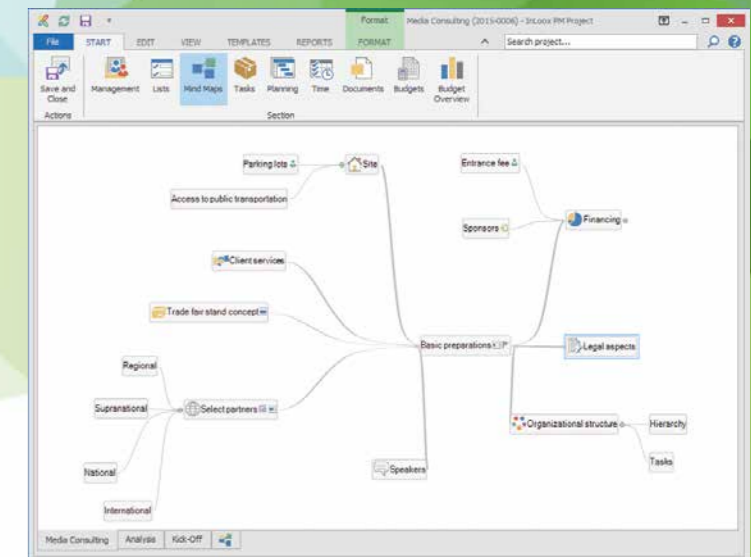

① Every project starts with the first task

There is nothing greater than a smooth workflow. With InLoox PM, every team member is always kept in the loop and knows who needs to do what until when. Link tasks to your project plan or work on them as project-independent tasks.

② Collaborate on ideas with your team

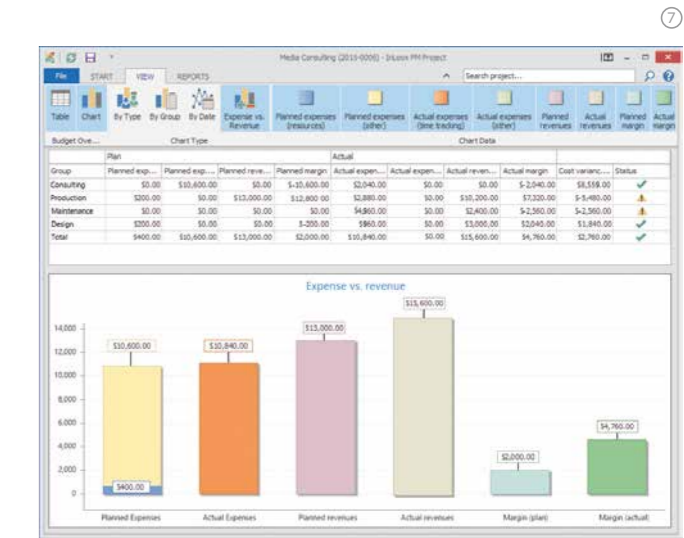

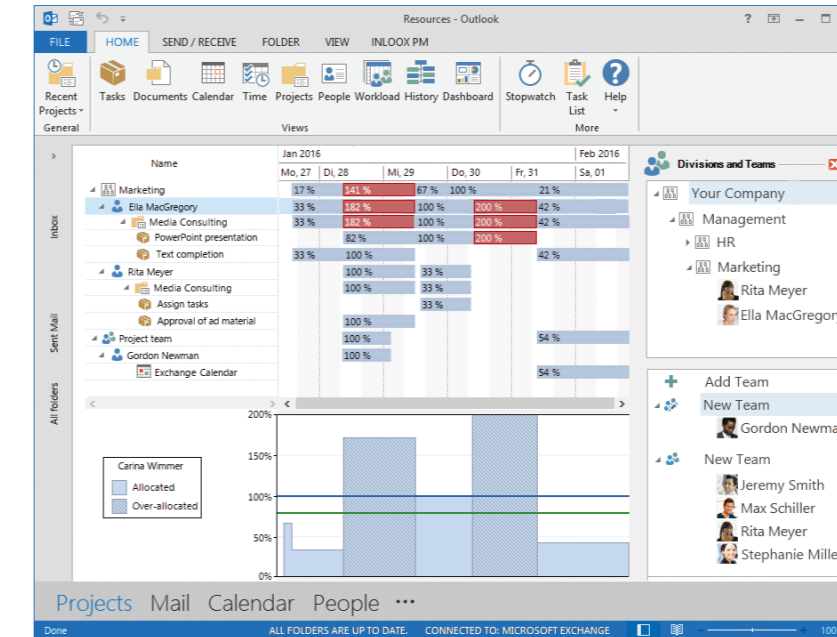

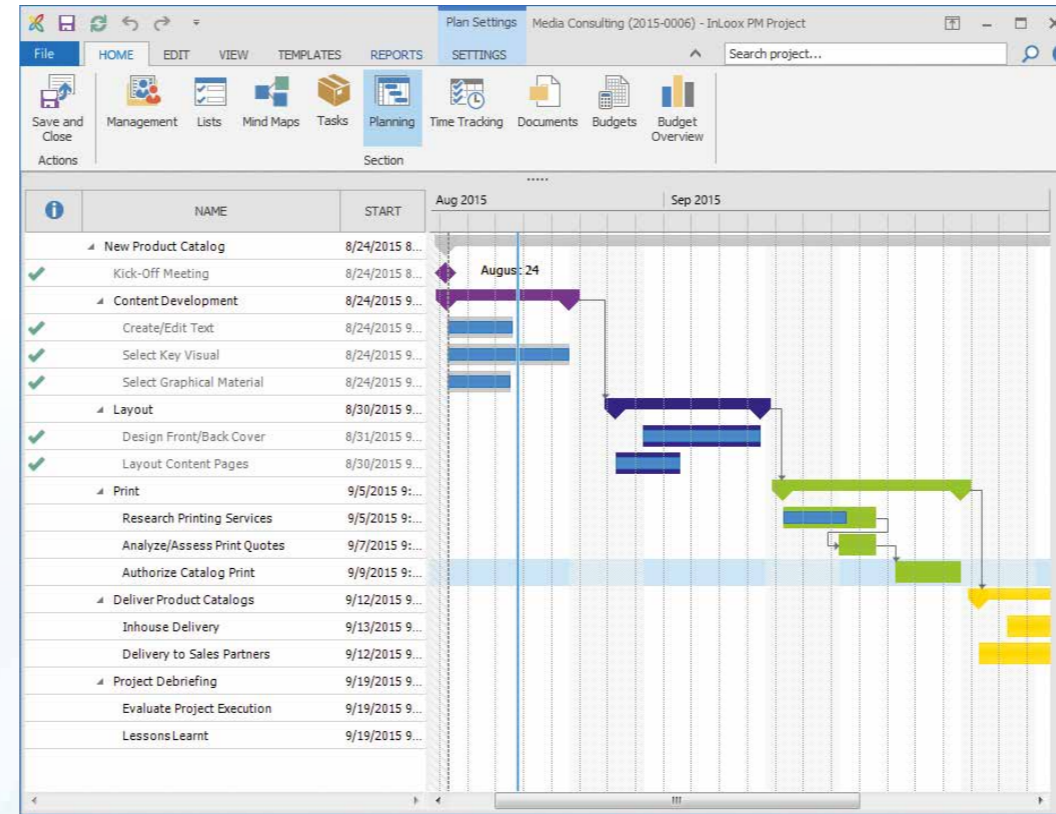

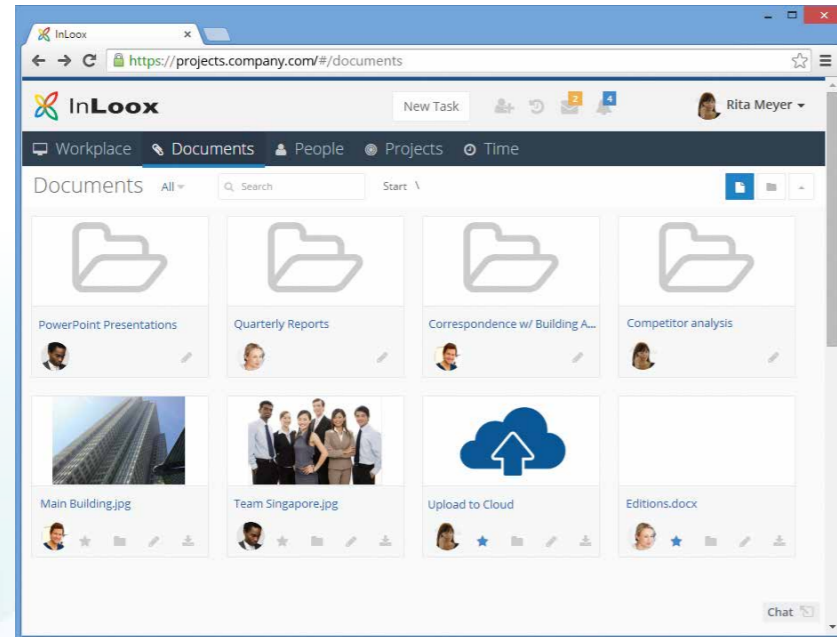

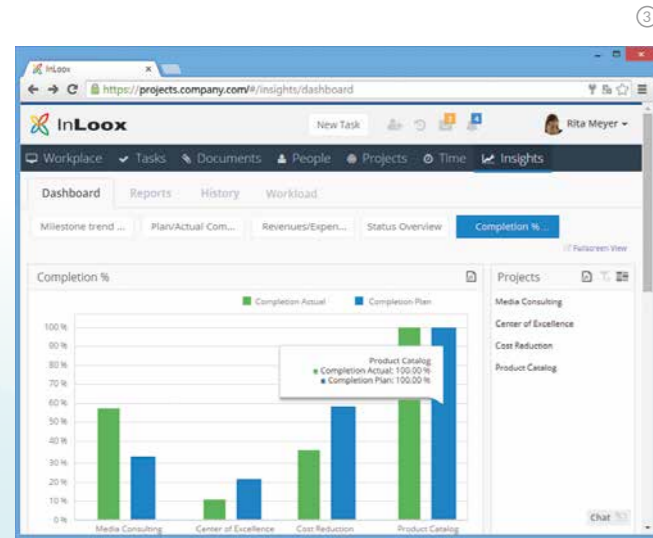

Visually gather and organize ideas and information among your project team. Concepts, outlines, and drafts always stay in focus. Conveniently transfer mind maps into the project schedule and the task management. The result is a seamless project planning process from brainstorming sessions to implementation. (exclusively for InLoox PM for Outlook)

InLoox PM – Project Management in Your Network

Project manager:

"InLoox PM simplifies my day-to-day project routine and lets me focus on the big picture."

3 Comprehensive overview

It is easy to lose sight of the big picture when working on large projects – but InLoox PM has got your back: it alerts you when it gets critical in terms of meeting deadlines, staying within budget or keeping project progress on track.

This enables you to react timely and be sure that everything is under control.

4 Convenient document management

Most projects produce huge piles of documents. InLoox PM brings order to the chaos, simplifies your document management and lets you link documents with projects or tasks. All your documents are stored in one place and are accessible wherever you are.

5 Reliable planning

Is your team making headway? Can you meet the project deadline? Get a visual overview of pending tasks, appointments and overall project progress both in Microsoft Outlook and on the Web. Benefit from a project time planning that does it all and is easy-to-use at the same time.

6 Effective resource allocation

The resource overview shows the workload of departments, teams, and individuals across projects. You can additionally include appointments from Microsoft Exchange Server and see who has free capacities in real time. Reassign tasks with one click to distribute workload evenly across all resources.

7 Full cost control

InLoox PM continuously compares budgeted and actual expenses and revenues enabling you to react quickly in case of incidentals. Budget warnings are color highlighted and you can determine the granularity of your budget display.
